ABOUT ME

I graduated from the Computer Engineering Department in June 2024. My aim is to work in roles that bridge technical and business needs, leveraging my background in computer engineering. During my education, I gained hands-on experience in software development through internships and actively participated in volunteer projects. These experiences allowed me to strengthen my skills in communication, team collaboration, problem-solving, and analytical thinking, making me adaptable to various fields within Information Technologies.

EDUCATION

Istanbul Aydin University - Istanbul, Turkey

2019- 2024   **BSc in Computer Engineering** – 3.47 / 4.00
