WORK EXPERIENCE

Advanco SA, Istanbul-Turkey

Apr 2025 – Present

Associate Software Developer

- Contributing to the development and maintenance of pharmaceutical serialization and packaging software using C#, .NET, Windows Forms, and MSSQL. Implementing new features, resolving software issues, and supporting project development based on customer requirements. Refactoring existing code to improve maintainability, while assisting with support tickets, troubleshooting application and database issues, and testing implemented changes.

BMS Proje, Istanbul-Turkey

Jun 2023 – Sep 2023

Full-Stack Developer Intern

- Developed additional interface components and features for a restaurant inventory management web application using ASP.NET Core and MSSQL. Integrated the new components with the database and improved application performance.

Aras Kargo Headquarters, Istanbul-Turkey

Sep 2022 – May 2023

Software Developer Intern

- Developed customer invoicing and product management applications with C#, Windows Forms, and MSSQL. Focused on creating efficient data management processes, intuitive user interfaces, and automation features to streamline reporting and operations.
